

2011 stay list

Where to find our 80 favorites

In addition to being a discriminating where-to-stay resource, the Stay List is an in-a-nutshell look at the geography, history, and architectural styles of ten countries. We've highlighted a handful of properties in these pages. Descriptions of all Stay List 2011 selections, from sophisticated city hotels to rustic retreats in the wilds, can be found at <http://travel.nationalgeographic.com/travel/hotels/>.
