REVIEW

DESCRIPTION

El MaPi – byInkaterra’s more affordable property in the Machu Picchu area of Peru – has officially unveiled its new organic spa, Spa del Bosque. Situated perfectly on the top floor of the resort with panoramic views of the village and surrounding cloud forest, Spa del Bosque features four private treatment rooms, a pine sauna, hydro massage showers, a heated plunge pool, a hydration zone, and only uses 100% organic products derived from local botanical extracts to complete the authentic visit to Machu Picchu.

On the menu is the signature Special MaPi Therapy that combines three therapies: a cranial massage with ancient Inca techniques, lymphatic draining and a leg treatment; along with a synergy of treatments intended to relax every stress area in the body.
