

### Inkaterra Reserva Amazónica, Madre de Dios-Tambopata

Discover the "Rainforest by night". Thriving with the noises and smells of the wild, biological activity differs greatly between night and day in the Amazonian ecosystem. At Inkaterra Reserva Amazónica we offer a very special tour of the jungle to give guests a taste of this. Beginning at twilight, guests are led by one of our knowledgeable Explorer Guides to have the opportunity of discovering the fauna which would usually be fast asleep during the day.

Venture into the rainforest and experience the mystery of the animal activity that awakens in the rainforest after dark, enhancing animal resources to create new adaptation mechanisms. Listen to nocturnal forest sounds and spot species that only emerge at night.
