› INKATERRA ‹  
CENTRO CANOPY  
TAMBOPATA - MADRE DE DIOS, PERU

## DESCRIPTION

The Inkaterra Canopy Centre, located near the base of the Inkaterra Canopy Walkway, has been designed for conferences, training sessions, expositions and other events, maintaining the explanatory panels of the Canopy Interpretation Centre as a visual decor. The goal of this place is to maintain its local style, develop activities and create the first really 100% sustainable operation in the area by reducing the use of electrical energy and taking advantage of solar systems, thus contributing to the conservation of energy. This centre includes an exhibition room, a lounge and also service areas.

## STYLE

The construction respects the typical native Machiguenga style; built on stilts, with woven straw roofs. It includes wide open areas; panoramic windows which allow a direct view to the pristine environment protected by transparent mosquito netting, high ceilings for good ventilation and natural light, plus lighting, furniture and signals in the same style as at the Inkaterra Guides Field Station.
